Loc Nguyen works with Android 2.2, 2.3, 3.1, 4.0, 4.1, 4.2, 4.3 love AB however, I realized at times with different games, birds lose their power and hit the target more slowly. I have been playing AB since going! Thanks for the fun! With the November 2019 update, however, it's worse than ever. Stutter birds across the screen, taking 5 - 10 seconds to try the load for another, and the birds will load forever on perch and stutter as well. I'm more disappointed than ever... I've lost the momentum of the game because it's too slow. Please fix this problem! It should be fast and not Slovo now you put ads covering buttons to start a game! What happens next? Loading sloooooow, stuttering braids across the screen, freezes, and because--- 5 - 10 ----seconds change so we have to view adds, this game has lost its sad momentum! The long delay between plays continues! It's so disk outraging and I'm thinking of not playing anymore and many of my friends. Angry Birds Friends all about? The basic premise of Angry Birds Friends is very similar to any other Angry Birds game and you should know the form now - shoot the birds with catapults to hit the construction of pigs and clear them all. Just like Facebook's only version of Angry Birds Friends, the game includes some special power-ups that help you in your quest, such as laser-vision catapults, turbo-charged birds and the ability to make piggies vibrate so they fall over. Although the gameplay is the same as Angry Birds, the angry birds friends format is very different. Instead of making you play through a series of levels until you finish the game, the level in Angry Birds Friends has been updated with new ones every week. When you play level you are not only trying to eliminate all piggies, but you are also trying to beat the best score for that level of all your Facebook friends who have played that level. In addition to competing with your pals for gold, silver and bronze trophies for each level on a weekly basis, Angry Birds Friends features daily challenges where you can scoop bonuses. Is it easy to play? Angry Birds Friends is just as easy to pick up and start playing as any other title in the series. There are five levels of training (which need to be completed) at the start, which will walk you through the basics but the only thing different to you may be power-ups Unless you have a Facebook version of Angry Birds friends before the game. It appears as icons along the top and can be activated simply by tapping them. The online element of Angry Birds friends is clear to understand. Once you have signed up to your Facebook account and agreed to link it with angry birds friends, all your friends who are competing on the leaderboard are shown on the right side of the screen, allowing you to see how many points they have at the current level and where you relate. You can invite friends to join in with angry birds friends and even send them gifts through the app. If you are already playing Angry Birds Friends on Facebook, your scores using the mobile app will sync across Facebook. How does it look? As you'd expect from a Rovio game, Angry Birds Friends are very slick and well presented. Cartoon graphics are as cute and wacky as ever, and the classic soundtrack is included (whether that's a good thing or not down to your personal preference!) The Tournament Resultspage is also well designed and makes for a bright and colorful way to view your performance against others. The nature of going head-to-head with your buddies on Facebook makes angry birds friends an absorbing challenge that you will have tons of fun with. Just don't expect anything new in terms of the gameplay itself. Sticky: You can now play completely and earn bird coins even if you don't log into Facebook!
